To-Whom It May Concern,

Andrea Shoup has worked at The American Academy for one academic year. She was a Gr.1 teacher.

Andrea is an outstanding teacher who fulfills her duties most aptly in a clear and concise manner. She is always well organized and efficient with her lesson plans, utilizing a wide variety of teaching strategies to address the needs of all her students. Andrea also sets high standards and expectations for herself and students alike. These are reflected in her routines and procedures as well as her positive classroom management.

Andrea is most definitely a great team player! She plays a very successful role in solving any student, parental, or teacher problems that may arise before they have a chance to escalate to the levels of the administration. She has been most supportive at volunteering her time and input to assist wherever needed in facing important school and team related matters.

Andrea is well-liked and respected by colleagues who will often seek her out for her professional rapport and personal advice.

Andrea has also been active in many additional school duties through this year. These include student supervision, updating Science curriculum and student classwork and picture portfolios.

It is a great pleasure having Andrea as a valuable member of the Early Childhood staff. I would highly recommend her services to any school or organization as a great asset towards the future and whatever ventures she may choose to pursue.

If you have any further questions please do not hesitate to contact me at either [REDACTED] or by email at [REDACTED]

Sincerely,

Samia Ibrahim
Early Childhood Principal
